Ecoplus Limited now offers a full Supply & Fit service for selected areas of the Republic of Ireland at a very competitive price.

We have agreed with a number of installers a fixed price of €799 including VAT for the installation of your PRT.

The supply & Fit price of €799 includes the Ecoplus PRT and its installation, 1 auto vent, 1 extra pump, and all required fittings. The Supply & Fit service is based on a standard Installation in a hot press/airing cupboard where all pipes are accessible. The installation excludes zoning and the PRT is placed on the floor in an upright position.

The installation includes a circulating pump controlled by a pipe stat on the feed to the PRT and assumes that a suitable power supply for the pump is already available in the hot press/airing cupboard.

To inquire about the installation of your PRT, complete this form and send it by post to Ecoplus Limited, Kerry Technology Park, Tralee, Co. Kerry.
